TIPS FROM THE EXPERTS

When staging your home, we recommend:

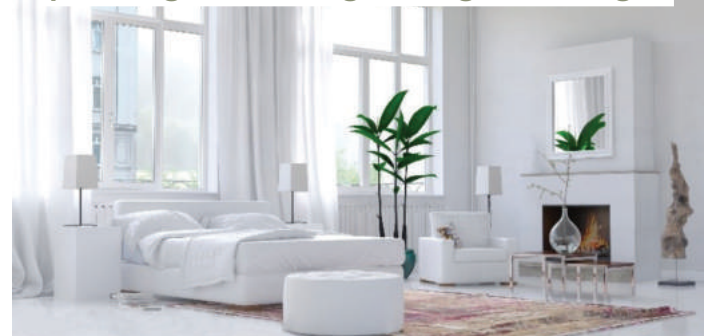

- Focus on curb appeal: Spruce up the exterior of your property by maintaining the lawn, mulching the garden beds and adding in happy, colourful flowers.
- Declutter and depersonalize: The golden rule is less is more.
- Keep it neutral, but add a pop of colour with accessories and large artwork.

WORTH THE SPLURGE

Good foundation pieces, like a comfortable neutral sofa or a well-made wooden dining table, are always worth investing in. **OH**
